## (X)HTML & CSS For Web Designers

### Description

If you want to develop websites, you need a solid understanding of HTML – the language in which the websites are written. This course teaches exactly that, how to read HTML. Upon completion of the course, you will be creating web pages that look and work as you envision them to and adhere to web standards.

### **Prerequisites**

No prior knowledge of web design is required, although a basic understanding of computer operations and interest in the web is assumed.

### Class Information

#### **Duration**

2 days

#### **Objective**

The primary objective of this HTML and CSS training course is to teach students the skills required to build websites with HTML and CSS directly through code.

#### **Who Should Attend**

Budding web developers.

Sprunt Media 180 Wardour Street London, W1F 8FY

**AUTHORISED**  
Training Centre
