

Autodesk 3ds Max

## 2 Month Design Experience & Training

### Description

This course includes Essentials and Advanced training on Revit, 3D Studio Max & AutoCAD at our London Autodesk authorised training centre. This is an opportunity to develop your design and technical skills by working on live projects and gain 1 months experience within a central London W1, Sprunt architects. The software training may vary depending on the type of course taken, which could be Design, Design & Technical or Technical.

### Prerequisites

Although not essential, Candidates are expected to have an understanding of Drafting, design, or engineering principles. Microsoft® Windows® Vista, Microsoft® Windows® XP, or Microsoft® Windows® 2000.

### Class Information

**Duration** 2 months

### Objective

The aim of this course is for candidates to develop their design and technical skills by using Revit, 3D Studio Max & AutoCAD within a well-established London based architectural practice. This work experience and official Autodesk training at our on-site training centre will mean that the candidate will be well placed for future career prospects in the architectural and design industry.

You will also become a certified user at the end of the course, which gives you Enhanced Skills and Recognition; An Electronic Certificate; An Autodesk Certification Logo and a Listing on Autodesk in the Certified Users Database. I have attached the brochure for more details along with the training course descriptions.

### **Course Outline**

The courses start on the last and first week of each month, starting with official Autodesk training on the software of your choice.

### **Training Schedule:**

2 months Skills Development & Work Experience course –

The courses typically commences on the first Monday of every month.

You will also have access to FREE Autodesk software for a further 13 months after completion of the programme. This means a significant saving on software costs.

AutoCAD, Revit & 3D Studio Max –

Training in Essentials, Advanced and Exam. This is supported by relevant work experience in a London based architectural practice using each Autodesk application.

### **Post-Training support**

All delegates are eligible to email support for up to 60 days from Sprunt Media.

### **Price Matrix**

2 months Skills Development & Work Experience course = £4000 + VAT.

Should you obtain full or part time employment from the Architectural practice in which you are placed to undertake your Design and/ or Technical work experience and training, a fee will be payable by that practice to the our training centre.
